Shelby F. Thames, Ph.D.

- 1 and you might not know the answer.
- 2 A. Okay.
- Q. But Dr. Burkley has got all this data in
- 4 front of him, and he's specifically there looking to
- 5 see whether or not there's oxidative degradation,
- 6 correct?
- 7 A. That's correct.
- Q. I mean, that's the whole point of his
- 9 tests, right?
- 10 A. Uh-huh (affirmative response).
- 11 Q. Right?
- 12 A. Correct.
- 13 Q. If that's the point, and the issue of --
- or plasticization is well known, and toughness is
- well known, and he's got all the data in front of
- 16 him, how did he not get to where you got?
- MR. HUTCHINSON: Objection.
- 18 Speculation.
- 19 THE WITNESS: He was a very young
- scientist at that time, and I'm not sure what
- 21 his polymer background was.
- 22 BY MR. MONSOUR:
- Q. Is it a fair statement for you to say -- I
- 24 want to summarize your opinion and see if you agree
- 25 with me.
